

Simplify  
everyday life.  
For everyone.

Giuliana P.  
Podder since 2015

**#1** prescribed  
insulin management system for kids

Simplify life™

# Deliver insulin anywhere, with a Pod that's barely there.

Ready to ditch the multiple daily injections?  
Or send the pump packing? It's time to try  
the Omnipod DASH® Insulin Management  
System—it provides tubeless, wireless,  
non-stop insulin delivery to help simplify  
everyday life for kids with diabetes.

#1 in customer service  
Rated first in customer service by users

Simplify  
days

## Freedom from multiple daily injections

No multiple daily injections, no tubes, no kidding. The Omnipod DASH® System provides 3 continuous days (up to 72 hours) of insulin delivery without multiple daily injections. Get it all through the pharmacy, with no commitment. Even the Personal Diabetes Manager (PDM) comes with your first purchase of Pods.

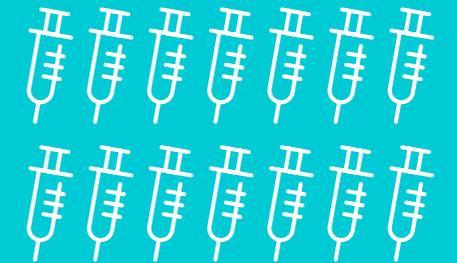

## 3 easy steps, every 3 days

- 1 Fill it up:** The Pod contains a 200 unit insulin reservoir. Once filled, it automatically primes itself and performs a series of safety checks.
- 2 Stick it on:** Place the Pod almost anywhere you would give your child an injection. The cannula (a small tube) inserts automatically.
- 3 Tap it out:** Use the PDM to control insulin delivery with a few taps of a touchscreen.

## 1 Pod replaces

## up to 14 injections

14 injections/3 days based on people with T1D on MDI taking  $\geq 3$  bolus and 1-2 basal injections/day multiplied by 3 days.  
Chiang et al. Diabetes Care.  
2014;37:2034-2054

## Simplify activity

### A tubeless, waterproof\* wearable.

A wearable Pod that's easily forgotten, but never left behind. The Omnipod DASH® System is a concealable alternative to traditional pumps that provides tubeless diabetes management without multiple daily injections. Place the Pod almost anywhere you would give your child an injection.

### Tangle-proof tubeless system

Kids can jump, skip, cartwheel, and flip without tubes to hold them back.

### Waterproof\* device

The Pod can be worn during bath time, pool time, or puddle-jumping time.

### Daily-injection-proof design

Never see or handle the insertion needle when handling the Pod. It uses a small, built-in tube (cannula).

## #1 in durability

Ranked most durable insulin delivery system over traditional pumps

2019 Pump Market Pirmer Final Seagrove

\*The Pod has an IP28 rating for up to 25 feet for 60 minutes. The Personal Diabetes Manager (PDM) is not waterproof.

## 2 Simple Parts

### Meet the Omnipod DASH® System

Omnipod DASH is an intuitive, innovative way to simplify life with diabetes. The Pod sits right on the body, and holds and delivers insulin for 3 days (up to 72 hours). The Personal Diabetes Manager (PDM) is a lightweight, durable, touchscreen device that makes delivering insulin look like sending a text—even better, it's free with your first purchase of Pods.

#### Futureproof updates

Software updates are available via Wi-Fi so you won't need a plug to stay plugged in.

#### Simplify mealtime math

Put mealtime math in the past with an integrated bolus calculator, presets, and the CalorieKing® library of 80,000+ foods (English only).

#### Busy-proof deliveries

Deliver insulin without interruption, on the go, wherever you're going.

### Simplify sharing

#### Omnipod DISPLAY® App

View all your kid's insulin data on your own smartphone and share it seamlessly with the doctor through the Insulet Provided Glooko® app.

#### Omnipod VIEW® App

Let the school nurse, soccer coach, and other caregivers (up to 12 total) monitor your child's insulin.

Insulin dosing decisions should not be made based on data displayed on the Omnipod DISPLAY® or Omnipod VIEW® apps. Always follow the instructions in the User Guide that come with the PDM.

Simplify  
goals

### Pod Therapy: Game-changing

Thousands of people are using Pod Therapy to simplify daily life with Type 1 and Type 2 insulin requiring diabetes. It's a different kind of insulin delivery that offers parents the control of a pump while setting kids free from daily injections.

# Simplify insulin management

## Why 97% of Omnipod® users recommend it\*

The Omnipod DASH® System has helped simplify thousands of people's lives. They have built a strong community committed to supporting each other and spreading the word about Pod Therapy. They call themselves Podders™.

\*In a January 2020 satisfaction survey of 2,481 Omnipod DASH and Omnipod System users, 97% of respondents, if given the opportunity, would recommend the Omnipod System to a friend or colleague.

*“I tried my first demo Pod at a lake.  
None of my friends even noticed.”*

Katie R.  
Podder since 2015

*“As a mom, I really feel like Omnipod DASH  
has lessened my day-to-day worry.”*

Maire K.  
Mom of Podder, Biren

*“Omnipod allows us to focus more on  
his childhood than his diabetes.”*

Rachel C.  
Mom of Podder, Frankie

*“Within a few days we noticed  
how much easier life was.”*

Michelle and Marty  
Parents of two young Podders
