

Limited Market Release: Omnipod[®] 5 with FreeStyle Libre 3 Plus Sensor Integration

Healthcare Provider Resource

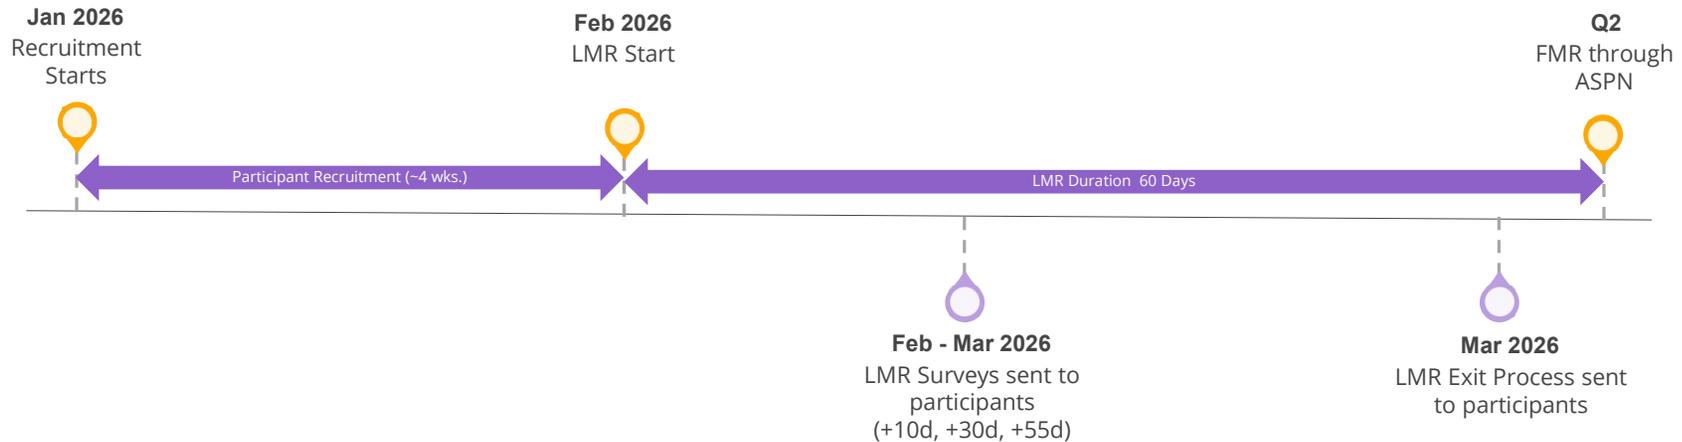

A Limited Market Release of Omnipod® 5 with FreeStyle Libre 3 Plus Sensor Integration is Coming Soon

- Beginning early 2026, Omnipod 5 will enter a Limited Market Release (LMR) with the FreeStyle Libre 3 Plus sensor
- The FreeStyle Libre 3 Plus sensor is a small 15-day sensor and when used with Omnipod 5 streams glucose readings automatically to the Pod
- We are actively enrolling eligible patients for this LMR. This is a unique opportunity to offer your patients early access to tubeless AID paired with Abbott's latest sensor

Pod and CGM shown without the necessary adhesive. The FreeStyle Libre 3 Plus sensor is sold separately and requires separate prescription.

Timeline

- We are looking to recruit patients between **January and February, 2026**
- The LMR period will begin **early February**
- At the end of the LMR, patients will have the option to continue use of Omnipod 5 with FreeStyle Libre 3 Plus sensor or transition back to their previous therapy

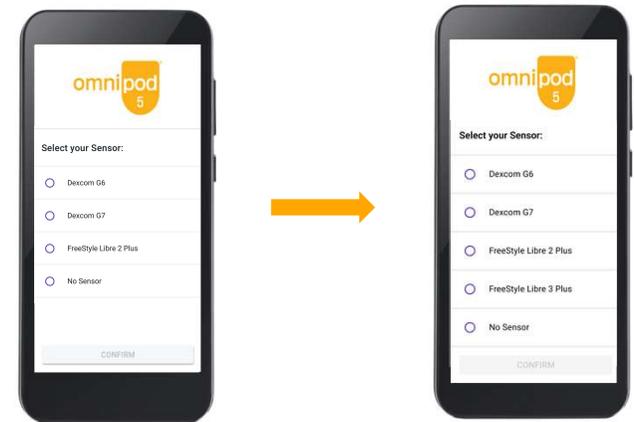

What's New for Omnipod 5 with FreeStyle Libre 3 Plus Sensor Integration?

Omnipod 5 Integrated with the FreeStyle Libre 3 Plus Sensor

KEY FEATURES

- + Omnipod 5 with FreeStyle Libre 3 Plus sensor integration:
 - Updated user interface offers sensor selection options: Dexcom G6, Dexcom G7, FreeStyle Libre 2 Plus sensor, & FreeStyle Libre 3 Plus sensor
 - Configurable alarms for FreeStyle Libre 3 Plus sensor in the Omnipod 5 App on the provided Controller & Android smartphone*
- + Updated Software:
 - Algorithm enhancements - Lower Target Glucose (100 mg/dL)
 - Updated Check Glucose Alert
- + Caregiver Solution App – Abbott’s LibreLinkUp
 - + Family and caregivers can see updated glucose readings every 5 minutes, trend arrow, 12-hour historical graphs and set their own alarm notifications
- + 2 Updated Pods:
 - 1 Pod compatible with both FreeStyle Libre 2 Plus and Freestyle Libre 3 Plus sensor
 - 1 Pod compatible with both Dexcom G7 and Dexcom G6

*Android compatibility at launch, not available at LMR

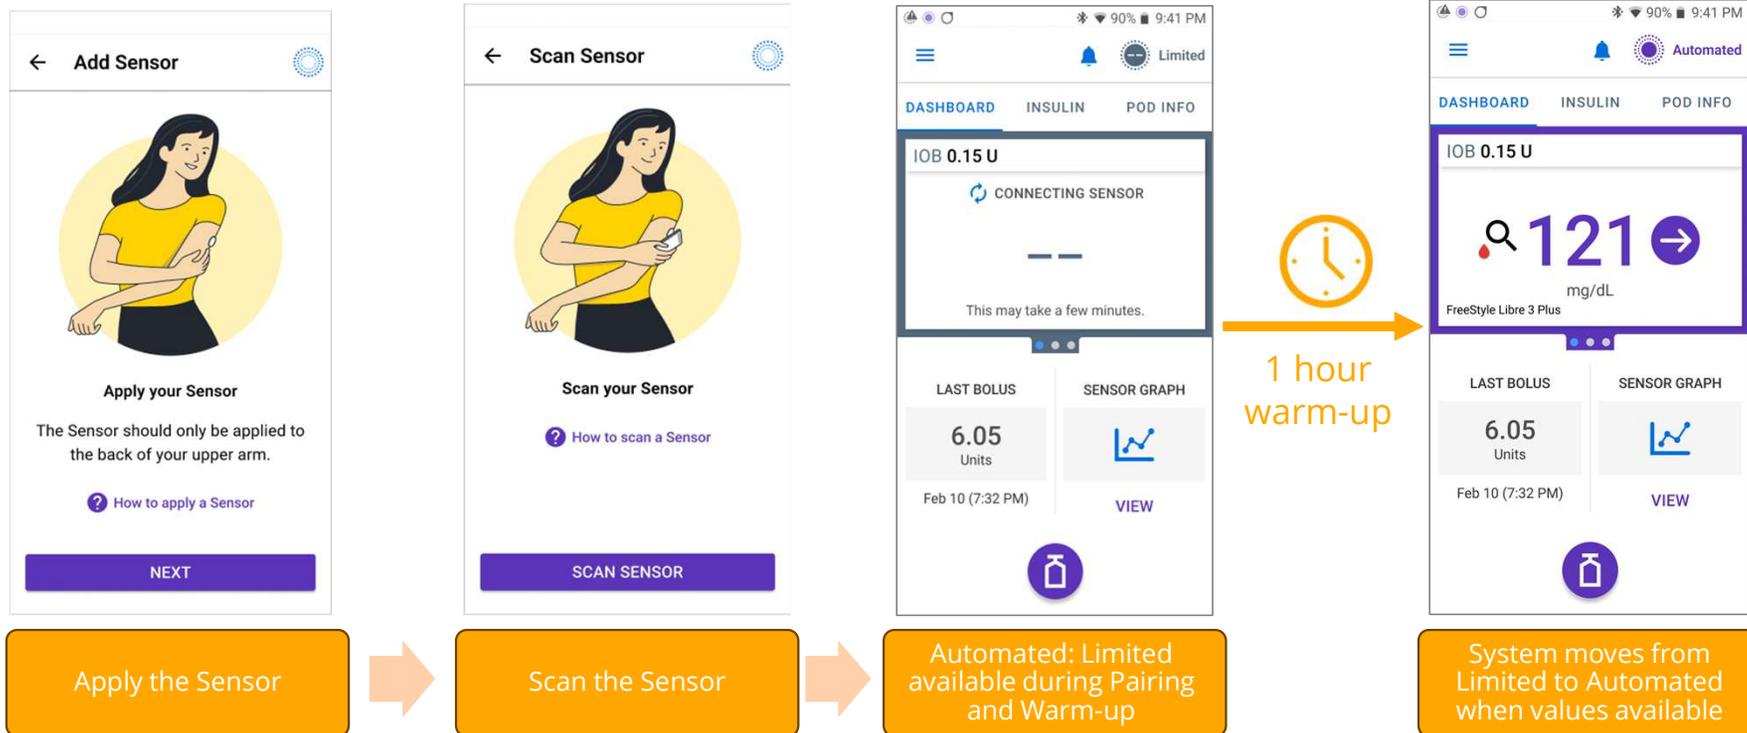

Pod and CGM shown without the necessary adhesive. The FreeStyle Libre 3 Plus sensor is sold separately and requires separate prescription.

Software Update: A familiar pairing process with the FreeStyle Libre 3 Plus Sensor

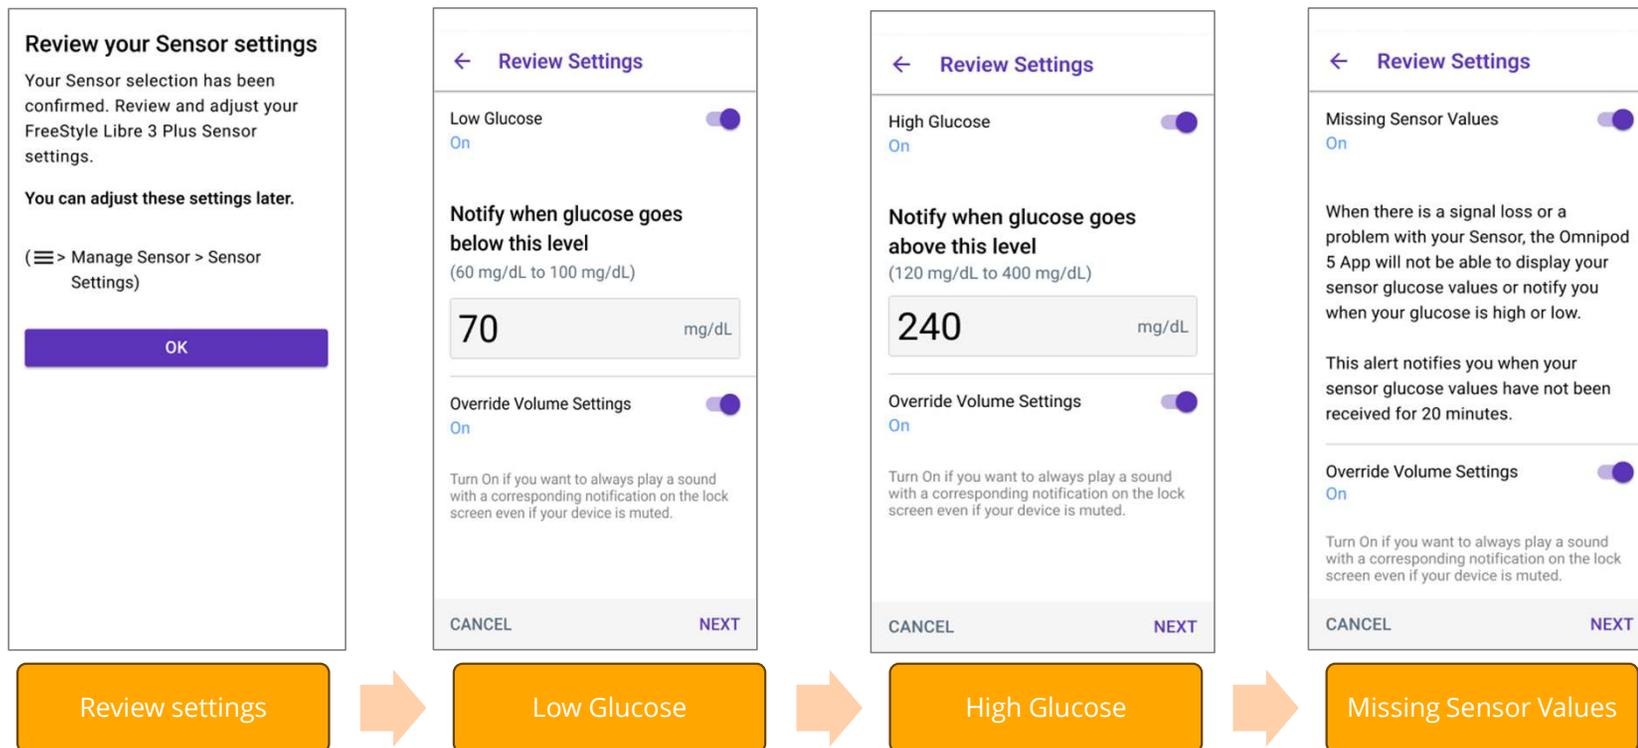

The FreeStyle Libre 3 Plus sensor **must be started** by the Omnipod 5 App on the Controller:

- **Scan sensor** by holding the back of the Controller near the sensor

Optional FreeStyle Libre 3 Plus Sensor Alarms

- All FreeStyle Libre 3 Plus sensor alarms managed from Omnipod 5 App on the Controller
- Settings-review prompts appear when switching to FreeStyle Libre 3 Plus sensor

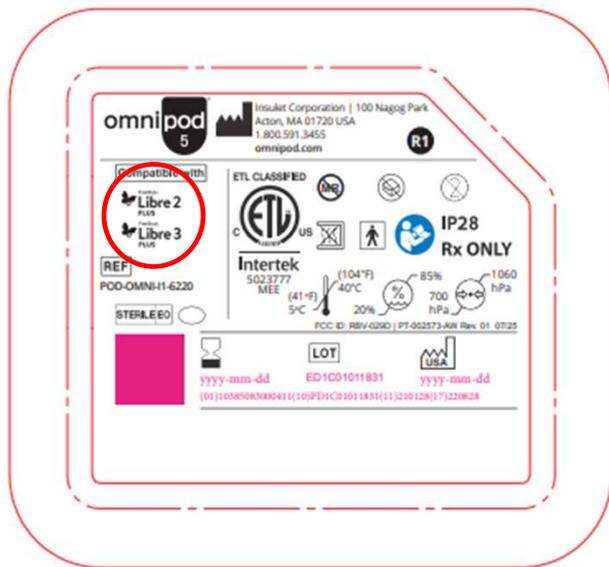

Updated Pods

- New Pods, same on-body form factor
- For compatibility, check Pod packaging or Pod tray lid

What's New in the Intro Kits?

- Controller includes updated software to allow:
 - Pairing with a FreeStyle Libre 3 Plus sensor
 - New, lower 100 mg/dL Target Glucose value
- Separate intro kits for different Pod/Sensor Compatibility
 - FreeStyle Libre 2 Plus/Freestyle Libre 3 Plus sensor Intro Kit: New Pods compatible with both FreeStyle Libre 2 Plus and FreeStyle Libre 3 Plus sensors
- Updated User Guide

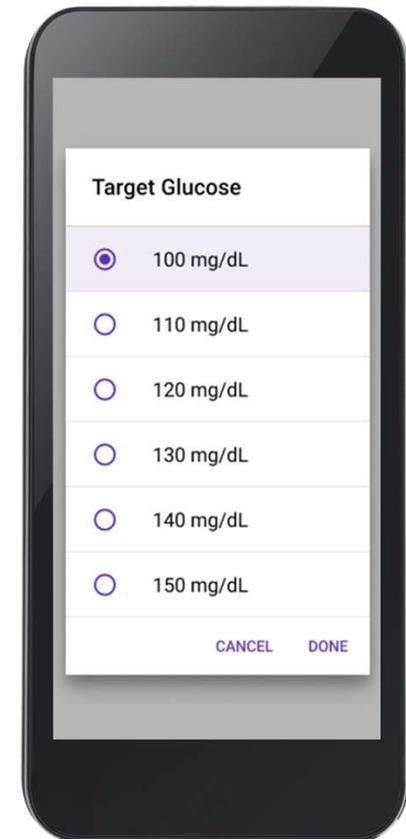

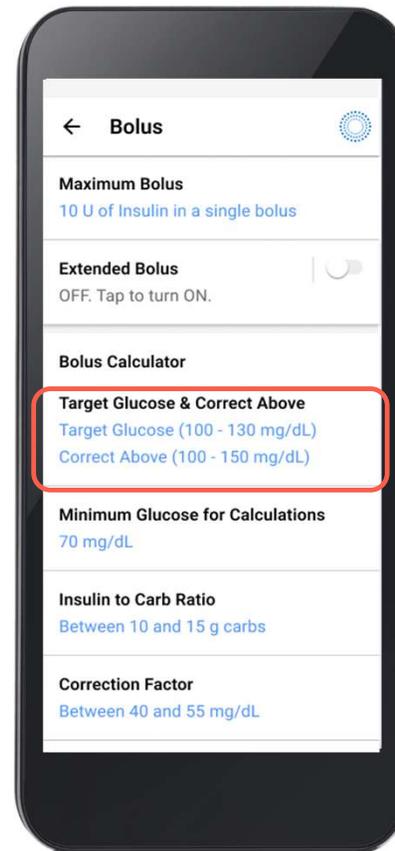

Note: updated Technical User Guide can be found digitally:
omnipod.com/guides

What are the Omnipod 5 Algorithm Enhancements?

Target Glucose

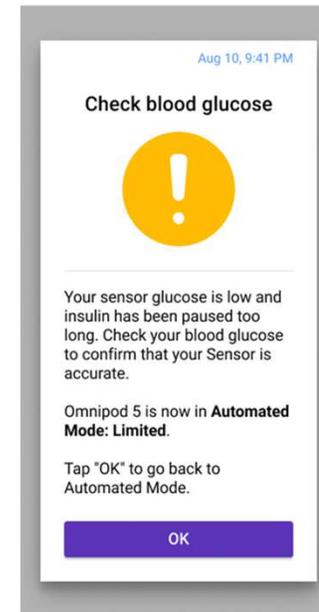

- Lower Target Glucose value (100 mg/dL)
- For LMR users, the default setting will be the 100 mg/dL during First Time Setup
- During LMR, if users want to update their Target Glucose setting, go to:
 - **Menu > Settings > Bolus**
 - Tap **Target Glucose & Correct Above**

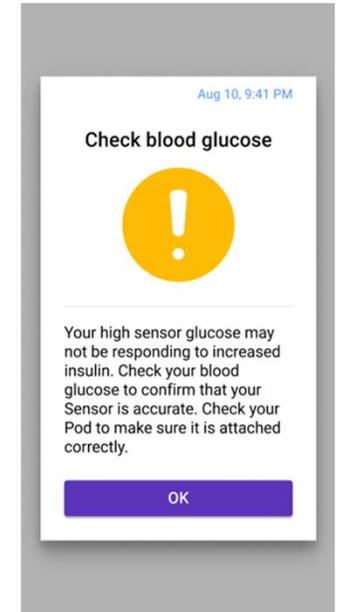

Check Blood Glucose Alarm (Advisory Alarm)

- **What is it?**
 - The **Automated Delivery Restriction** alarm is being replaced with the **Check Blood Glucose** alarm
- **What causes the alarm?**
 - The System has been working to bring glucose into range but hasn't seen the changes it expected (insulin paused for too long, or delivering the maximum amount for too long)
- **The new Check Blood Glucose alarm offers:**
 - **Keeps user in Automated Mode for prolonged high glucose events:**
 - No need to switch to Manual Mode for 5 minutes (as with Automated Delivery Restriction Alarm)
 - Improved alert handling: fewer interruptions, even during prolonged highs
 - Shows if sensor glucose is low or high and how to troubleshoot

Prolonged Low Glucose Event

Prolonged High Glucose Event

How do I get patients started in the Limited Market Release?

Limited Market Release Process

- **Enrollment:** You and your patients will need to complete the necessary paperwork for enrollment. (Omnipod 5 prescription, Participation Acknowledgement Form, and Pump Therapy Order Form for new to Omnipod 5 users)
- **Sensor Prescription:** All participants will need to wear the FreeStyle Libre 3 Plus sensor. Please prescribe it as you do today.
- **Shipment:** After participation is confirmed through Insulet, patients will receive a Controller and a 60-day supply of Omnipod 5 Pods to cover the LMR period.
- **Training:** New to Omnipod 5 patients will be trained by Insulet. Current Omnipod 5 users will use the available resources to get started.
- **Feedback:** Patients will be expected to complete surveys about their experience via email on days 10, 30 and 55 of wear.
- **LMR Exit:** Patients will be contacted by Insulet Customer Care to discuss their options for therapy continuation.

Ideal Candidates for the Limited Market Release

- **Eligible candidates for the Omnipod 5 with FreeStyle Libre 3 Plus sensor integration must be commercially insured and include:**
 - ✓ Patients who are currently using Omnipod 5 with the FreeStyle Libre 2 Plus sensor
 - ✓ Patients in your practice who are looking to use Omnipod 5 with a FreeStyle Libre 3 Plus sensor

Enrolling patients in the LMR

Work with your local Omnipod representative to submit the following completed forms to: omnipod5librelmr@insulet.com

1

Omnipod 5 Prescription Form

The form includes the following sections:

- omnipod** logo and contact information: Insulet Corporation, 100 Nagog Park, Acton, MA 01720, Fax: 877-667-2538, www.omnipod.com
- Confidential:** Patient Healthcare Information
- Prescription:** This is a prescriber's order for Omnipod®. Please complete the information below to ensure that your patient can be on Omnipod insulin therapy. If there are any changes, please cross out incorrect information and update accordingly.
- Patient Information:** Fields for Patient Name (Print, Middle, Last), Date of Birth (MM/DD/YYYY), Gender, Patient Street Address, Phone Number, City, State, Zip Code.
- Prescriber Information:** Fields for Prescriber Name (Print, Last), M.D./D.O., Practice Street Address, Phone Number, City, State, Zip Code, and Medical License.
- Prescriber's Order:** A section with checkboxes for "Omnipod 5 DexG766 Intro Kit" (NDC/NRC: 08508-3000-01), "Omnipod 5 Libre Intro Kit" (NDC/NRC: 08508-3000-88), "Omnipod 5 DexG766 Pods" (NDC/NRC: 08508-3000-21), and "Omnipod 5 Libre Pods" (NDC/NRC: 08508-3000-42). It also includes options for dispensing frequency (change every 72 hours, change every 48 hours, or dispense as written) and a section for the prescriber's signature and date.
- Footer:** Please fax the completed prescription to the dispensing pharmacy. If you have any questions, call 1-800-591-3455. © 2025 Insulet Corporation. Omnipod, the Omnipod logo, and SimpliLife are trademarks or registered trademarks of Insulet Corporation.

2

FreeStyle Libre 3 Plus Sensor Prescription

Prescribe the FreeStyle Libre 3 Plus sensor for eligible new Omnipod 5 users and current Omnipod 5 patients using your usual Abbott prescription process.

New to Omnipod 5 users will also need a completed pump therapy order form.

3

Participation Acknowledgment Form

The form includes the following sections:

- omnipod** logo
- OMNIPOD® 5 FREESTYLE LIBRE 3 PLUS INTEGRATION LIMITED MARKET RELEASE PROGRAM PARTICIPATION ACKNOWLEDGEMENT - GENERAL**
- INS-OHS-12-2023-00039 v1.0
- Thank you for your interest in joining the Omnipod® 5 Automated Insulin Delivery System with FreeStyle Libre 3 Plus Sensor Integration ("Omnipod 5 System FreeStyle Libre 3 Plus sensor integration") Limited Market Release Program (the "Program") and being among the first to use the Omnipod 5 System with a FreeStyle Libre 3 Plus sensor.** Insulet is asking those who participate to agree to fulfill a few requirements that will help refine processes prior to full market release.
- To participate in the Program,** Insulet will require that your healthcare professional (HCP) provide a Prescription Form ("PF") for the Omnipod 5 System for use with a FreeStyle Libre 3 Plus sensor. Please discuss with your HCP that they will need to provide the PF to Insulet.
- As this program is part of a Limited Market Release, participation will be based on a first-come, first-served basis.** Once the desired number of participants is reached, the recruitment process will end. Please make it a priority to complete all required documentation and return as soon as possible after receiving the invitation to participate in the Program. Insulet reserves the right to reject any application. By participating in this Program, you will receive an Omnipod 5 Starter Kit and Pods to cover a 60-day wear period, at no additional cost to you, for the duration of the Program. Insulet does not provide FreeStyle Libre 3 Plus sensors as part of the Program, you must procure those sensors yourself. When you participate in the Program, and during your subsequent ongoing use of the Omnipod 5 System, Insulet will have full access to the personal data within your Omnipod 5 System. Insulet's Notice of Privacy Practices and Privacy Policy describe how Insulet will use this data. Those documents are accessible by clicking on the appropriate links at <https://www.omnipod.com/privacy-policy>. In addition, Insulet will use this data to provide you with product and customer support and to communicate with you about your use of the Omnipod 5 System. Your data may also be used to make improvements to the Omnipod 5 System.
- Please review the expectations below, and, if you agree to move forward, complete the requested information and sign and date the Acknowledgement below.**
- Participation Expectations:**
 - Participation is voluntary. You may discontinue participation at any time, by calling 1-800-591-3455, Option 2.
 - The Program will last for sixty (60) days from the day you are trained or start using the Omnipod 5 System with a FreeStyle Libre 3 Plus sensor (whichever comes first). The Program may be extended at Insulet's discretion.
 - You are expected to use a FreeStyle Libre 3 Plus sensor for the duration of the program. The Omnipod 5 System Automated Mode requires the use of a FreeStyle Libre 3 Plus sensor. If you do not already use a FreeStyle Libre 3 Plus sensor, or cannot obtain a FreeStyle Libre 3 Plus sensor prior to start, you may not participate in the Program. Any cost related to acquiring the FreeStyle Libre 3 Plus sensor during participation in the Program shall be borne exclusively by you, based on the system's cost and your insurance policy.
 - You agree to collaborate with your HCP to obtain and submit completed participation documents within two (2) weeks of going into the Program. This is first-come, first-served participation. To request assistance from Insulet to obtain the participation documents, please call 1-800-591-9948.
- CONFIDENTIAL** INS-OHS-12-2023-00039 v1.0

Sensor Prescription FreeStyle Libre 3 Plus

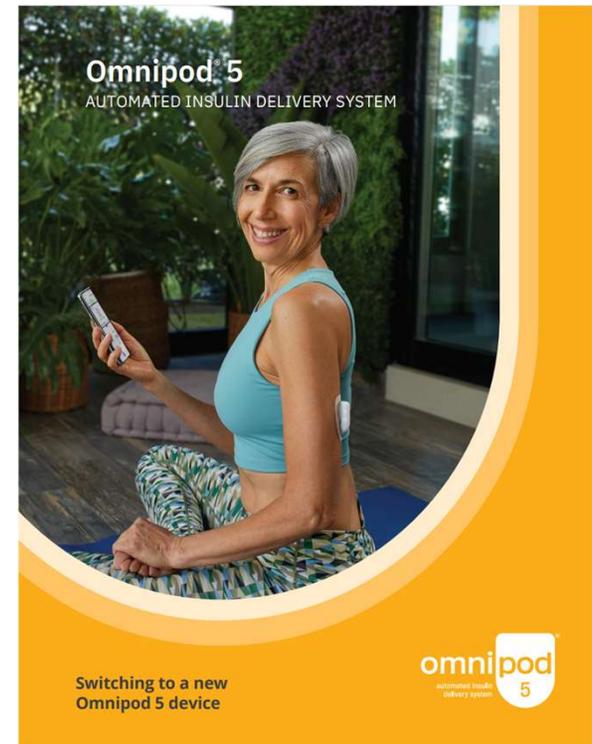

- The FreeStyle Libre 3 Plus sensor is required to participate in the Limited Market Release
- Follow the same prescription process you do today to prescribe the FreeStyle Libre 3 Plus sensor
- For instructions on how to prescribe the FreeStyle Libre 3 Plus sensor, [click here](#)

Shipment of the Omnipod 5 System

What will participants receive?

- Every participant will receive an Omnipod 5 System Intro Kit and 60-day Pod supply
- Current users will need to transfer their settings to the new Controller to get started*

*Please note that for current Omnipod 5 users, starting on a new Controller means that adaptivity will restart

Getting Patients Started on Omnipod 5 with the FreeStyle Libre 3 Plus Sensor

- Patients will need to sign the LMR participation agreement and complete other enrollment paperwork as applicable
- Once complete, prescribe the FreeStyle Libre 3 Plus sensor as you do today
- After participation is confirmed through Insulet, patients will receive a Controller and a 60-day supply of Omnipod 5 Pods to cover the LMR period
- Patients can expect to hear from Insulet starting mid-January
- Patients will be expected to complete surveys about their experience with Omnipod 5 with FreeStyle Libre 3 Plus sensor via email on day 10, 30 and 55 of wear

Patient **Training** for the Limited Market Release

- **Existing Omnipod 5 users** will not receive specific training on Omnipod 5 with FreeStyle Libre 3 Plus sensor integration, but will have access to resources, including:
 - ✓ Transfer Settings Guide
 - ✓ “How to Connect the Sensor” video
 - ✓ Technical User Guide
- **Patients new to Omnipod 5** will receive training from an Omnipod clinician
- **If sensor training is needed**, patients may visit the [Abbott website](#)
- Patients who are eligible for training will need to bring a FreeStyle Libre 3 Plus sensor to the training. **Patients should not start their FreeStyle Libre 3 plus sensor before their training.**

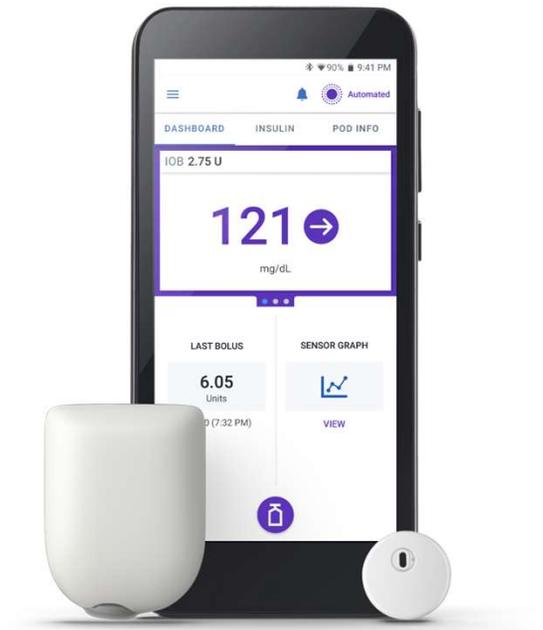

LMR Exit Transition Pathways

- Within two weeks of LMR completion, the patient will receive a call from an Omnipod 5 customer care representative to discuss their options for continuation of care:
 - ✓ Continuing to use Omnipod 5 with FreeStyle Libre 3 Plus sensor
 - ✓ Transitioning back to previous therapy

Key Takeaways

- We are actively enrolling for a limited market release of Omnipod 5 with FreeStyle Libre 3 Plus sensor integration
- Patients in your practice may be eligible to participate. Eligibility requirements include commercially insured patients and:
 - Existing patients who are using Omnipod 5 with the FreeStyle Libre 2 Plus sensor
 - Patients in your practice who are looking to use Omnipod 5 with a FreeStyle Libre 3 Plus sensor
- If you have a patient who may want to enroll in this LMR, please contact your Omnipod representative
- If you or your patient have any additional questions, please call the Omnipod 5 Customer Care Team at [1-800-591-3455](tel:1-800-591-3455), option 2

Pod and CGM shown without the necessary adhesive. The FreeStyle Libre 3 Plus sensor is sold separately and requires separate prescription.

Frequently Asked Questions

Question	Answer
What documents are needed to get started?	To participate in the Limited Market Release, patients need to complete the Program Participation Acknowledgment form. Insulet will need a signed Prescription Form from the healthcare provider to ship the product. New users also need to submit the Pump Therapy Order Form (PTOF) before they can get started.
How will participants be receiving Omnipod® 5 with FreeStyle Libre 3 Plus sensor integration?	Once Limited Market Release (LMR) participation is approved, Insulet will provide next steps, including details on how patients will receive an Omnipod 5 Controller and a 60-day supply of compatible Pods directly to the address provided by the participant when signing up. They will receive a shipment confirmation. FreeStyle Libre 3 Plus sensors require a separate prescription and will need to be obtained separately.
Will the patient have insurance coverage of Omnipod® 5 with FreeStyle Libre 3 Plus sensor integration after the Limited Market release is complete?	Insurance coverage may vary. We will reach out to the patient with information regarding their ongoing Omnipod® 5 with FreeStyle Libre 3 Plus sensor integration coverage and options within 2 weeks before the conclusion of the Limited Market Release.
Who do patients call if they have problems with my Omnipod 5 during the Limited Market Release?	If patients need assistance during the Omnipod® 5 with FreeStyle Libre 3 Plus sensor integration Limited Market Release, they can contact us at 1-800-591-3455 Option 1, or use the Live Chat Support through your PodderCentral account.

Important Safety Information

The Omnipod 5 Automated Insulin Delivery System is indicated for use by individuals with type 1 diabetes mellitus in persons 2 years of age and older and type 2 diabetes mellitus in persons 18 years of age and older. The Omnipod® 5 System is intended for single patient, home use and requires a prescription. The Omnipod® 5 System is compatible with the following U-100 insulins: NovoLog®, Humalog®, Kirsty® and Admelog®.

Refer to the Omnipod® 5 Automated Insulin Delivery System User Guide and www.omnipod.com/safety for complete safety information including indications, contraindications, warnings, cautions, and instructions.
